Re: <u>IANA Stewardship Transition Coordination Group Request for Proposals</u>

Dear IANA Stewardship Transition Coordination Group (ICG):

Thank you for giving the Internet Number Community, as one of the communities that interoperates with the IANA function, an opportunity to develop the attached proposal for the transition of stewardship over the number resource component of the IANA function. This proposal reflects the consensus of the Internet Number Community.

Based upon consensus developed within the Internet Number Community and facilitated by the five Regional Internet Registries, the proposal was drafted by the Consolidated RIR IANA Stewardship Proposal Team (CRISP Team). The CRISP Team is a working group composed of three representatives drawn from each of the five regions convened specifically for this purpose, committed in their work to the principles of multistakeholderism, transparency, and consensus.

We herewith convey the product of our labor to you, with our thanks and best wishes.

Sincerely,

Izumi Okutani
Chair
CRISP Team
