## -INVITATION-

**Dear Professional,**

Global Leadership Interlink (GLI) is a global network of professionals and students committed to transformation in society through the development of values-based leaders. The need for values-based leadership is undeniable. We face unprecedented, complex, global challenges that require global solutions and leadership of unprecedented quality and capabilities. We understand that the society demands values such as integrity, humility, selflessness and collaboration to be preeminent in emerging and current leaders - as well as professional expertise and competency.

GLI is a network that equips professionals and students from across the world with these values and provides organizations with insights and consultancy on how they can address the complex issues they face. Our global spread and unique perspectives allows GLI to get to the very heart of issues and provide approaches by which long-term solutions can be built.
